

ML4 Urethane Screen System

A Modular Screen System

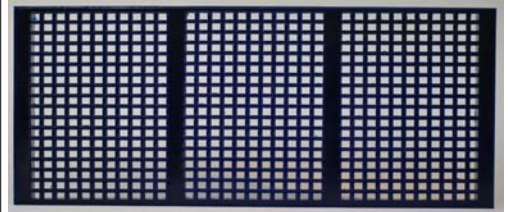

No Deck Modification Required!!!!

Yes! A modular screen system without deck modification.

Don't throw away 24 square feet when only 1 square foot is worn!

Great open area

Easy installation

Tension sub-deck frame like wire screen
Then snap on the modules

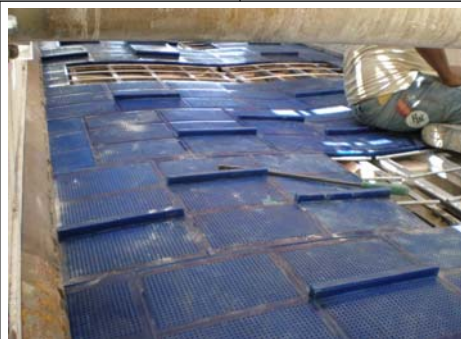

Anti-blinding

Combat blinding and get longer wear-life
Works especially well on high-frequency, end-tension screens.

Excellent for RAP screens

Dams and staggered module arrangements increase efficiency

Available in various wire configurations
